

Homepage loads like this,  
plain color background with  
logo large in the center.  
Arrow signals you to click.

See how arrows should  
work on Ro&Co website,  
linked on the drive.

Logo shrinks on scroll, or when you click the arrow.

This is now the sole “project page” Images of projects are shown as the background.

Arrows to work like linked referenced on drive.

Navigation hidden until hovered. Arrow icon used to signal user to hover.

Navigation presented.

Phrase page, with  
parallax feature

Link to Podcast  
website, no live  
link yet.

About/Info page.

# Dirk Elijah

SHORT | LONG

Dirk Elijah Edwards may not be, though spends time operating as, a writer, podcaster, and designer.

He lives in Cleveland right now and works personally and privately. He plays privately and publicly around the Midwest. He takes commissions of interesting direction or more interesting pay-outs. If you want to communicate by writing things down, they may be addressed to *dirkelijah@gmail.com* or rattle those thoughts off into my ear when you dial (317) 205 5089. Maybe thoughts in your head may be fun to interact with thoughts in my head.

Show you care, and  
give me a follow.

No time to read the above?  
Contact me here.

at my past life.

Info page can load like  
how it does now. Layout is  
slightly different. Just has  
the three columns below,  
which will all be links.
